From the dreams of two young mothers over 40 years ago, came the reality of today's Crystal Stairs, Inc. - Children learning, parents thriving, and communities bursting from the pride and success of nurturing children and families into better futures. As mothers and educators, Crystal Stairs' founders knew that every moment in a child's life creates an opportunity to make a difference. High-quality early childhood care and education remains our chosen path to this vision. This is the collective vision of Crystal Stairs, Inc. that guides us as we look to improve the lives of families through child care services, research and advocacy.

Through the efforts of our board, staff and many professional and community partners, Crystal Stairs' programs and services enhance the quality of life for thousands of children and families in Los Angeles every day. Helping a parent find child care, training child care providers on how to nurture and educate young children, helping parents and providers bridge the affordability gap with child care subsidies and teaching a child to use a computer are just part of what we do. We help families to succeed, children to learn and child care providers to be competent, confident caregivers.
