Updated eligibility directives, including recent guidance and any impacts on determining Eligibility, Need and Family Fees will be discussed, as well as any content you would expect during the live session.

Join us for this robust discussion around determining Eligibility and Need factors and their relationship to successful enrollment, engagement and attendance. This seminar is different, rather than a step-by-step review of enrollment practices, this highly interactive seminar asks you to bring your questions (and be willing to share your best practice!) regarding the more complicated nuances of the less common cases relating to Eligibility and Need. The presentation will help guide all in attendance through a deep dive into the regulations, enabling you to interpret, understand and execute in even the most uncommon circumstances, all in the name of supporting the families we proudly serve.

This year's agenda will be driven by you! We will build our event around your questions and responses to the pre-survey.

Topics Driven by You!

Your voice will drive the discussion as you will have the opportunity to engage in a live dialogue with our presenters and freely exchange information. In addition to our carefully vetted presentation, you have the opportunity to help shape the agenda! This year we are taking your scenarios and questions to help elevate the conversation. With your help, we hope to bring clarity to the ECE community through our collective knowledge. **On your registration, you will be asked to submit your questions and concerns for the training! Help us shape the training to whatever needs you and the rest of the ECE**
